

September 9, 2009

Paul,

I wanted to write this letter to you to formally express to you my gratitude and my sincere appreciation for helping me with my office building. The overall experience of just working with you and your staff was far better than I could have ever imagined. You were always there to walk me through things and to help educate me to make good solid decisions on design and materials. I have worked with many contractors in the past. Most are always on their time table, they never take or return calls, they never do what they say they are going to do and they are always looking for ways to overcharge and under deliver. I am thankful that you are not the typical contractor.

This was one of the biggest things I have tried to tackle in my life and I couldn't have picked a better person to be in the trenches with me than you and your company! Thanks for your hard work, dedication and for delivering a great product.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Lewis", is written over a horizontal line.
